OFFICE OF  
SOLID WASTE AND  
EMERGENCY RESPONSE

3/8/13

Dear Mrs. Myer:

We have received and reviewed the information you submitted on your company's sorbent "Osprey". Our review indicates that this product meets the definition of a "sorbent" as specified in Title 40 of the Code of Federal Regulations (CFR), sections 300.5 and 300.915(g) of the National Contingency Plan (NCP). Based on this review, "Osprey" is not required to be listed on the NCP Product Schedule. U.S. policy is that sorbents are used to recover oil from the environment.

So that you may be prepared to provide On-Scene Coordinators with a certification as referenced in section 300.915(g)(4) of the NCP, the following statement should be reproduced, dated, and signed on your corporate letterhead:

[SORBENT NAME] is a sorbent material and consists solely of the materials listed in section 300.915(g)(1) of the NCP.

Should you have questions, please contact me at (202) 564-1970.

Sincerely,

A handwritten signature in cursive script that reads "William Nichols".

William Nichols
