Oil Containment Supplies

Loose Sorbent

OspreySorb™: Our 30 to 1 pick-up ratio Cellulose Sorbent, provides you with a superior efficient solution for hydrocarbon spills and leaks.

Product Characteristics: Hydrophobic, Oleophilic, 100% Biodegradable and Non-toxic.

Drill Cutting Sorbent: Our Drill Cutting Sorbent provides an easy application to solidify oil in the mud and dirt. A great option for construction and drilling sites.

Pads

Cellulose Oil Only Pads: Our innovative product design creates a very durable, effective and user friendly way to clean up your oil spills and leaks.

Oil Only Pads: Oleophilic wipe that is perfect for soaking and cleaning up oil spills. Rugged, heavy weight wipes that are strong and reusable.

General Purpose Pads: These general purpose wipes are perfect for soaking and cleaning up oil, water or other messy spills. Rugged heavy weight wipes that are strong and reusable.

Melt Blown Pads: These general purpose pads are perfect for soaking and cleaning up oil, water or other messy spills. Perforated to fit other dimensions to be more user friendly.

Socks & Booms

Cellulose filled Oil-Only Socks: OSC brings to you a superior sock filled with OspreySorb™. Providing the user with maximum oil recovery with a 30 to 1 pick-up ratio. A #1 option to containing and managing an oil spill.

Oil-Only Socks: Our Oil-Only socks are filled with absorbent fiber that are both oleophilic and hydrophobic to soak up oil leaks but leave the water behind. These oil-only absorbent socks can be used for everyday maintenance or emergency spills. They absorb oil based fluids, diesel, gas, cutting fluids, hydraulic fluids, vegetable oil, etc.

General Purpose Socks: Our universal absorbent socks are filled with super absorbent fiber to soak up spills fast. These general purpose absorbent socks can be used for everyday maintenance, repair and general operations. Absorbs water based fluids, oil, diesel, gas, coolants, cutting fluids, hydraulic fluids, vegetable oil, alcohols, turpentine, etc.

Cellulose Filled Oil-Only Boom: OSC brings to you a superior sock filled with OspreySorb™. This provides the user with maximum oil recovery with a 30 to 1 pick-up ratio. A # 1 option to containing and managing the oil spill.

Oil-Only Boom: These netted booms float while containing spills and absorbing oil spills. These booms are hydrophobic and only absorb oil. They have quick acting clips and rings to allow overlapping to prevent spill passage at junctions.

Decontamination Supplies

Rolls

Rolls: The perfect addition to your personnel cleanup, this heavy duty absorbent material is customizable; soaking up oil which filtering water through.

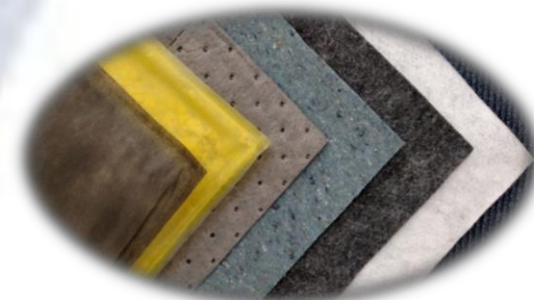

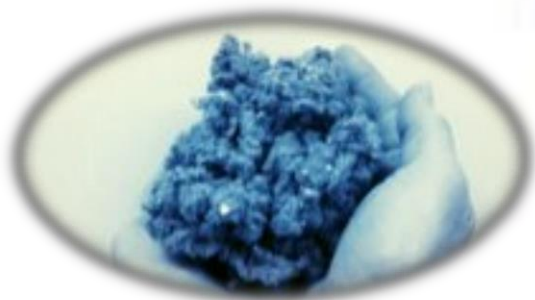

Mats

Mat: Our super absorbent mat provides a durable and effective decontamination site, making cleanup for OSRO personnel easier and more effective, preventing secondary decontamination.

Pillows & Drip Pans

Pillows: Our cellulose filled pillows allow for easy clean up in the most challenging spaces, allowing for immediate and effective spill containment, utilizing a tear resistant material.

Drip Pans: The Drip-Catch Pillow Pan is the best of both worlds; super absorbent pillow within a flexible barrier pan. This provides very high retention levels. Super flexible for easy positioning in tight locations, yet ruggedly constructed to prevent spillage when removal is needed. Will not spill like messy overfilled drip-pans.

About OSC

Osprey Spill Control, LLC offers an innovative technology in sorbent products, with OspreySorb™ closing the gap in your response toolkit needs. OSC has engineered a cellulose sorbent designed to achieve a 30 to 1 pickup-ratio. OSC has certifications with WOSB, WBENC, is a member of SCAA and is listed with the EPA.

As a non-toxic sorbent, OspreySorb™ provides OSRO's and industries around the world with a product that adsorbs more oil per pound than its competitors to complete your spill response toolkit.

OspreySorb™

A game changer in oil spill response.
